

# Assembling

We offer you the production and assembling of components which you receive from us as a complete system.

In doing so, we take the whole logistics for you:

From the production of turning/milling parts, the purchase of mounting components and heat treatment and surface refinement, as well as technique for joining parts:

- welding
- brazing / soldering
- clenching

## Checking and quality management

- 100% checking on hydraulic test facilities
- monitoring of press force
- high-pressure and leakage tests
- documentation

Do you have any questions or want detailed information?

Our [sales team](#) will be pleased to help you.
